Objective

Computer Science graduate seeking an entry-level Software Developer role to apply programming skills, problem-solving abilities, and software development knowledge to build efficient, reliable applications while growing as an engineer.

Skills

Languages: Python, JavaScript, Java, C, SQL

Frontend: HTML/CSS, React, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, Flask

Databases: MongoDB, MySQL

Web & APIs: RESTful APIs, WebSockets, Authentication

Tools & DevOps: Git, GitHub, Firebase, Docker, Nginx, AWS, Kibana

Projects

Invigilens: AI-Powered Full-Stack Examination Monitoring System

GitHub

Tech Stack: Python, Node.js, Express.js, MongoDB, HTML/CSS, JavaScript, WebSockets

- Developed a full-stack real-time examination monitoring system using Python, Node.js, Express.js, and MongoDB to process live video feeds and deliver malpractice alerts.
- Built WebSocket-based monitoring dashboards for real-time invigilator notifications and student tracking with sub-second latency.
- Developed an OpenCV and YOLOv8 computer vision pipeline to detect 6 malpractice behaviors.
- Annotated 6,000+ images to train and fine-tune YOLOv8, achieving 67.6% mAP@50.
- Improved detection performance and FPS using lightweight 2D head-gaze estimation with YOLO Pose keypoints.

Modernized Printing Solutions

GitHub

Tech Stack: Python, Flask, MongoDB, HTML/CSS, JavaScript, Firebase

- Developed a full-stack web application for print-shop file handling, quotations, ordering, and print-job management.
- Built Flask and MongoDB backend functionality for document processing, orders, dynamic pricing, and status tracking.
- Developed a real-time pricing engine based on PDF page counts and user specifications.
- Integrated Firebase Authentication and Razorpay for secure authentication and online payments.
- Implemented hardware-to-web synchronization to automatically update print-job status.

Certifications

Introduction to IT and AWS Cloud - Amazon Web Services

Nov 2025

Full Stack Developer Bootcamp - GeeksforGeeks

June 2025

Cloud Computing Foundations - Google Cloud

Oct 2024

Education

Bachelor of Technology in Computer Science and Engineering

2022 – 2026

Amal Jyothi College of Engineering (Autonomous)

Senior Secondary (CBSE)

2020 – 2022

St Antony's Public School, Anakkal, Kanjirappally

Secondary (CBSE)

2020

St Antony's Public School, Anakkal, Kanjirappally

Leadership Roles

Vice Chair, ACM AJCE Student Chapter

July 2025 – May 2026

- Coordinated chapter activities, technical initiatives, timelines, and team responsibilities as part of the executive committee.

Event Coordinator, ACM AJCE Student Chapter

May 2024 – June 2025

- Coordinated 3 technical workshops including UI/UX, Game Development, and Flutter with 260+ participants.
- Led UXplore, an inter-college UI/UX hackathon, coordinating execution, logistics, and team collaboration.
